NUMBER 41

DISAPPOINTED SPECTATORS WITNESSED JULY 1ST. EXHIBITIONS

Boxing and Wrestling Matches
Proved Failure - Men
Matched with
Connell

PROVED JOKES
Connell's Action was Surprising
- Yet Men He Combated
with were Novices

"It's a drizzling rain outside and it's a freezing breeze inside." Such was the manner in which the boxing and wrestling exhibitions of Monday night were described by a spectator at the ringside and his opinion was shared by numerous others who were in attendance.

A fair estimate of the crowd might be given as four hundred and a more pugnacious gathering would not be imagined. At times it seemed as though a riot would ensue and scenes of pandemonium were in evidence from the start. Dunc McMillan, who refereed the majority of the matches, had no child's play and at times his decisions were received with much resentment. Especially was this true of the Schmidt-Woods bout, and for a full half hour the crowd was in an uproar.

The first match between Cote of Chauvin and Hoskins of Viking was somewhat of a farce, from the fact that the Viking wrestler was at least twenty pounds heavier than his opponent. Hoskins won in two straight falls but the pluck of the Chauvin lad produced rounds of applause from the bleachers.

Schmidt, who had wrestled under the name of Carl Marks, was the next man on the mat and agreed to meet any man in the audience if he stayed fifteen minutes would forfeit \$25. Woods, the burly pitcher of the town team, stepped forward and over the ropes. Repeatedly he broke dangerous holds, which included half and full Nelsons, crotch and scissor holds, until in the right corner of the ring he stumbled and fell with Schmidt towering above him. Here it was that the crowd accused Schmidt of using the straight hold. Using effective foot work and securing a toe hold on Woods, the former Wetaskiwin boy, pinned him to the mat and the referee declared Schmidt a winner. The crowd flew into an immediate uproar. Several rushed for the ring, climbed the ropes and hung out expressions of "fakir", "steal" and "rotten" at McMillan. To satisfy the crowd, they were again placed on the mat in the same position as before and in just one minute and thirty seconds, Woods went to the mat in a similar manner as the first. Again Schmidt was announced the winner and again the spectators hooted and hissed.

Kirby of Chauvin and Schmidt then matched for five rounds of boxing and from start to finish the Chauvin lad easily outclassed Schmidt at all points of the game. In fact Schmidt was a child in Kirby's hands and it was a general opinion that he could have knocked him out at will. During the third round, Schmidt was bleeding profusely from the nose and mouth and was fatigued from that time on. Kirby was given the decision and it was a popular one.

Previous to the final bout, Dunc McMillan, ex-champion heavyweight wrestler of the world, announced that Howard (Connell) had been given a raw deal in Edmonton and that he was willing to wager \$1,000 that Connell could trim Burns with an impartial referee.

EXCAVATION STARTED
Excavation for the building to be erected on Main Street by Mr. W. B. Crawford started last week and the work is now about completed. The building will have a frontage of fifty feet and will be built of brick and concrete.

MUD IS AN EXBORE
The mud around the station continues to be an eyesore and a source of great aggravation to the travelling public. The mud was anywhere from two to six inches in depth all through the rain storm and the condition of it is not much improved even at present.

ADDED ANOTHER STORY
Mr. Robert Kenny has added another story to his residence on Second Avenue, and the big roof which is now completed makes a much better appearance. Other improvements will also be made about Mr. Kenny's premises.

PHOTOGRAPHER HERE
Mr. C. M. Bark, late of Edmonton where he owns a studio, is here, and will assist at the new photographic studio recently opened here by Mr. John Gano. He will remain for a month. Mr. Bark is an experienced man, who understands his business from the ground floor up.

WILL GO TO EDMONTON
Mr. E. D. Stimpson, the well-known local architect, is liable to leave here in the near future for Edmonton where he has accepted a position with the Alberta School Supply Company. He was in Edmonton last week and signed a contract so it is understood.

WILL MEET KIRBY SOON
Jack Connell will likely meet Charlie Kirby here soon and the match will doubtless be a good one, if Kirby compares at all favorably with the showing he made here on Monday night. When the match will come off is not known. Soon at any rate.

Connell was promised \$1,000. The promoters handed him a roll which was supposed to contain this guarantee. When counted \$700 was there. He was double crossed by his manager and given a raw deal all around.

Connell also stepped forward and stated that he was willing to meet any man in the world, black or white, for the same amount of money which was coming to him from the Burns fight. He had been branded a quitter but that was neither here nor there.

Holbrook of Viking and Schmidt then met Connell in succession and the exhibitions were a frost. Neither Holbrook or Schmidt displayed anything. In fact, they were better figures than they were opponents. Connell, however, had the same opportunity of displaying his action as did Burns in Edmonton with Mickey McIntyre. Both were on the defence throughout and in the third round, Holbrook was down for a count of nine. The match was refereed by Kirby who showed his disgust by sniffling grins. In action, Howard or Connell, as he might better be called, showed up very favorably. He has a bad right uppercut which, once landed, produces the desired results. But the exhibition of Monday night was certainly no mention of what class Connell is in. He's a boxer at any rate but his ability cannot be judged in a conflict with novices at the game.

ABOUT TIME ALEXANDRA GOT SOMETHING IN WAY OF RURAL 'PHONES

Citizens of this Constituency
Must Await Pleasure of
Representative

While Southern Districts Get
All the Appropriation for
Such Extension

Isn't it about time that the telephone line was extended at least as far west as Edmonton? To think that in a district where improvements of all kinds have been gone on with, there is no telephone communication between important points where such communication is necessary, the government of this fair province comes in for little credit in this respect. There is no doubt but that the southern portions of Alberta are more densely populated, yet this is not sufficient reason why the total appropriation for this department should be expended there, while the northern sections are almost entirely disregarded. Because Southern Alberta has representatives who are better alive to the needs of their constituents is undoubtedly the cause for this situation.

It would appear to all sane men that the sooner this riding is represented as it should be, the sooner will Alexandra get what should be coming to it.

SAW MANY IMPROVEMENTS
Mr. C. D. Sutherland of Luss, who is well-known here from the fact that he started the Red Cross Pharmacy Co., was in town for Dominion Day, returning to that point on Tuesday. Mr. Sutherland saw many improvements in the town.

EXCAVATION MUST BE COMPLETED IN A WEEK

Union Bank Building will be Under
Way in Week and Cellar Must
be Excavated Before
Next Wednesday

Before another week has passed the excavation for the new Union Bank building at the corner of Main Street and Third Avenue must be completed, according to the contract which was signed here yesterday by John Manner and Mr. M. Healey, on behalf of Messrs. Healey Bros. of Calgary. Material for the structure has already been purchased from the Imperial Lumber Co. at this point and work will be under way immediately following the excavation of the cellar. The temporary building which is now being used has been moved from the corner lot to the adjoining lot south, which property is owned by the Union Bank.

10 CARLOADS OF CATTLE
Ten car loads of cattle were shipped from here on Monday, this being the steers purchased from Messrs. Mahey, Wells & Newport by the Swift Canadian Company of Edmonton, \$30,000 was the purchase price of the cattle.

The Leland Restaurant at the corner of Third Avenue and Queen Street has opened and is now under the temporary management of Messrs. Bell & Myers.

RAILWAY LOST IN CLOSE GAME WITH TOWN TEAM

Doc Watson Handed Out Poor
Decisions But Refused
to be Bluffed

One of the most exciting and interesting ball games witnessed here this season was pulled off on Wednesday evening last between the town team and the G. T. P. nine. The many and frequent controversies which arose between the players and the umpire made the game full of excitement and at stages of the match it looked as though blows would be struck by members of the opposing teams.

A bigger battery was on deck and both the pitcher and catcher were a favourable comparison to Woods and Wynholt of the town aggregation. In the opening inning, the G. T. P. boys scored their one and only score on a fumbled pass by Livingstone at third. Had it not been for this error, the railway boys would have been shut out completely. Dr. Watson, who umpired the game, gave decisions which to the spectators appeared incorrect, although it was well to note that he stuck to his decisions and refused to be bluffed out by either of the opposing teams. Close decisions made the umpiring difficult.

In the fifth and last inning, the local boys scored two runs, and this, added to the score made in the third, brought the tally up to three. The game ended with this score and was entirely due to a splendid catch by the town second baseman who covered it like a god.

Woods' pitching was a feature and had it not been for the error made in the first inning, Livingstone, which was excusable, the circumstances the game would have resulted in a shut-out.

H. W. McLEOD IS NEW SUB-LAND AGENT HERE

Postmaster McLeod has received the appointment at this point as Sub-Agent for Dominion Lands, information to this effect having been received by Mr. McLeod on Saturday last.

Mr. McLeod, who succeeded Ex-Postmaster Culp, is now in charge at the local office and since Saturday last has been in charge of the land office. The appointments is a popular one and Mr. McLeod has received many congratulations since this information from the Department of the Interior has been received.

HERE FROM PITTSBURGH
Mr. John Nickle, who has been working out of Pittsburgh for the past while, is in town on a short visit with his family. Several of Mr. Nickle's children are ill, although nothing serious is wrong with them. He will return today.

R. B. Davison, manager of the Union Bank, is confined to his rooms this week. Dr. Little who is attending Mr. Davison was of the opinion at first that he was suffering from appendicitis, although he now states that he is suffering from gastro-enteritis.

The wedding of Mr. Charles R. Reid and Miss Florence V. Howard was solemnized here on Friday last by Rev. H. A. Clark. Both the principals in the event held from Paradise Valley, where the groom owns a valuable half section of land. After the wedding, Mr. and Mrs. Reid left for Winnipeg, from whence they will proceed to Stockport, England, where Mr. Reid's people reside.

NORMAN HARRIS DEALT WITH WAINWRIGHT IN FAVOURABLE MANNER

Financial Editor Toronto Saturday Night Impressed with
Original Townsite but
Cuts a Swath Through All Subdivisions and Especially
that of Woodlawn

Norman Harris, Financial Editor of the Toronto Saturday Night who visited here some time ago on a tour of inspection of the Canadian West, made very favorable mention of Wainwright in his last issue and the way he knocked the subdivision known as South Wainwright was described as "ferce".

Mr. Harris apparently followed out his good opinion of Wainwright when he said that the town was going ahead on a sound and sane basis. His viewpoint was very creditable and reliable and different from Saskatoon and other centres in the West. Wainwright was given such mention as to create favor in the East. As for South Wainwright, East Wainwright and the subdivision known as Woodlawn; well, the sarcasm was rich.

Special mention is made of Wainwright's flourishing board of trade and the president, Mr. S. E. James, whose engraving appears in double column with the writup. The whole article occupies more than two pages and does credit to Mr. Harris' observation.

Miss Elders of Winnipeg, spent Dominion Day with her brother, Mr. O. J. Elder, chief clerk in the office of Superintendent Walton at this point. She was accompanied by her aunt, Miss E. Elder of Montreal.

WANT TO INSTALL ELECTRIC PLANT AT ONCE

Results from Article in Chicago
Publication Already Apparent
At Least Six Electricians
Interested Now

Results are already perceptible from the prominence which Wainwright received through the Chicago publication, entitled, "Opportunity", and President James of the board of trade is in receipt of no less than six communications in regard to an electric lighting plant for Wainwright.

It is not unreasonable to suppose that the town will receive even greater publicity as the result of this favourable article. The publication has a circulation of more than a million and is read by subscribers on both continents. Letters to Mr. James have come from the remote states of the American republic.

BACK TO NEW BRUNSWICK
Mrs. H. W. McLeod and family left here on Sunday for Sussex, N. B., where Mrs. McLeod will visit her people. She will be absent about two months. "Old Home Week" is being celebrated in New Brunswick this month.

FARM FOR SALE CHEAP
33-244-6 W. 4th. \$1850. \$600 Cash Balance arranged. For further information apply
W. B. Crawford & Co.

IN EDMONTON REAL ESTATE
Mr. Ed. Ellis, late Superintendent of the Buffalo Park, was in town recently and returned to Edmonton. Mr. Ellis will not likely accept the position which was offered him by the provincial government, but will remain in real estate.

THE G. T. P. GROUNDS
Information has been received from Mr. W. P. Hinton by Mr. J. Harper that the G. T. P. will improve their grounds around the station so that bowls can be enjoyed by lovers of that game. It will not be done, however, until a firm seed results from this year's grass seed.

STRUCK FROST AT RISK
John Manner who has the contract for the excavation of the fire tank at the skating rink was forced to cease excavating last week on account of striking frost. The frost was encountered at a depth of five feet.

PILFERING FROM CARS
While standing on the side tracks Friday night, a car was broken into and pilfered of several articles. Agent Harper states that if the clues on which the company are now working, materialize the culprit will be prosecuted to the full extent of the law.

LEG TAKEN OFF
Lawrence Haley, a young brakeman employed on the Prince Albert branch of the G. T. P., had the misfortune last week to lose his footing with the result that he had a leg taken off. Mr. Haley is well-known here and is a brother of Mrs. Henry Myers.

PIONEER VISITS TOWN
Mr. J. N. Beaudry, who was in business here at one time, was in town for Dominion Day, and visited his son, Mr. G. H. Beaudry. The senior Mr. Beaudry is in business now at Elm Park and his many local friends will be glad to learn that he has been very successful.

FELL FROM PONY
Miss Winnie Isted had the misfortune to be thrown from her pony while riding through the town on Friday evening last. She was taken to the hospital, where it was found that injuries were light.

VIOLENT THUNDER STORM
A violent thunder shower passed over the town on Wednesday evening last and was accompanied by one of the fiercest hurricanes ever experienced in these parts. The rain, however, was welcome and was much needed in the district.

REPRESENTED BOARD OF TRADE
Mr. W. B. Crawford attended the Calgary Exhibition for a few days last week and while there represented the local board of trade at the meeting of amalgamated boards of trade of western Canada to discuss the effect of the Panama Canal on western trade and commerce.

SUPERVISING HOTELS
Mr. E. D. Stimpson went to Chauvin yesterday to superintend the commencement of the Chauvin hotel. On Friday he will leave for Mirror where he will superintend the erection of the Imperial Hotel at that point. He will accompany Mr. T. G. Cook who will also go to Mirror.

EXTRA STRONG CABBAGE PLANTS for sale,
M. Cardell, Town.

RAIN PUT CRIMP IN SPORTS BUT STIFFENED CROPS THROUGHOUT THE DISTRICT

Of Course the Sporting Fraternity was Disappointed
- But Rain was
Needed

RAIN WAS GENERAL
Boxing and Wrestling in Evening Only Attraction to
Break Monotony
of Day

In repetition of last year, the year before and the year before that, July 1st was anything but fair, and as a consequence the holiday makers in and about the town, were somewhat disappointed. A very heavy rain started in the early hours of the morning and when day broke the downpour of rain was the heaviest of the season.

Excursionists from points east and west communicated with the local athletic association to ascertain what part of the day's sports would be run off. Return wires were sent stating that the ball games had been called off and that unless the weather cleared nothing but the bouts in the evening would be witnessed. When the trains from Viking and Chauvin arrived, it was found that few more than forty people were on the two trains, all of these coming as supporters of Kirby and Holbrook.

As a matter of fact this proved the only attraction of the day, for the downpour continued. Not even an exhibition ball game could be played, the ground being in a very muddy condition. None of the teams presented themselves and it was well that they didn't. A surprisingly large crowd, however, was in town and the hotels were filled from morning until night, the bars consequently doing a rushing business.

No disappointment of a marked nature was expressed for the rain was badly needed in the outlying country districts where the crops were suffering from drought. Of course the athletic association will lose hundreds of dollars, yet this is a thousand times compensated by the benefits which will undoubtedly accrue from the rain, which was general throughout the district.

SEVERALS APPEALS AT DISTRICT COURT

District court session was held here on Wednesday last and the following cases were tried before Judge Lees, who presided.

Goold Shapley and Muir Co. Limited vs. G. H. Taft. Action for price of windmill. Judgement for defendant, dismissing action and allowing him \$60 for damages. H. V. Fieldhouse appeared for the plaintiffs. R. W. Manley of Wetaskiwin for defendants.

Forster vs. Otto. Appeal by Mabel Otto from decision of Magistrate Dawson under Master and Servants Act. Appeal dismissed. J. F. Carnill of Edmonton appeared for appellant and H. V. Fieldhouse for respondent.

Kingsboro vs. Mills. Action promissory note. Judgement for plaintiff, H. V. Fieldhouse appeared for the plaintiff. Betty vs. Rhinart. Action for price of breaking etc. on defendant's land. Judgement for plaintiff for whom H. V. Fieldhouse appeared. F. V. Pelton of Edmonton for defendant.

Cooper vs. Fox. Action for threehilling bill of \$20. Judgement for plaintiff for \$13.65. H. V. Fieldhouse appeared for the plaintiff.

FACTORY WORK WESTERN CANADA

People Progress in Many Cities in Regard to Manufacturing Industries

Here and there throughout Western Canada are evidences that it will not be long before the great west will have its manufacturing industries. Already a number of industries are in operation, with a fair prospect that more will follow. It will astonish visitors to Winnipeg this summer to see the permanent exhibition of the products of Winnipeg factories in the fine big hall of the Industrial Bureau on Main street. A large building, with abundant floor space, is filled with displays of all sorts of manufactured articles. There are many fine exhibits in all corners, showing a wide range of production, and yet the floor space is too limited to include all that wish to enter. An addition of 17,000 square feet will be made at once. This Winnipeg display of manufactured goods is an eye-opener to the man who thinks the prairies are devoted solely to agriculture. Possibly the Manitoba city is in the van in its industrial development, but there are other western cities which are realising that if they are to maintain their growth, they must have something besides real estate businesses to keep them going. They are all in the hunt after factories, and what is more, they are beginning to get them.

As an indication of what may soon be expected in the larger centres of population in the west, the experience of Winnipeg is most instructive. That city has some very notable manufacturing concerns. Naturally, many of these are diminutive, and a good number are in the printing office, which hardly comes in the category of manufacturing. But the balance is a fairly respectable number. Of all Winnipeg's industries, iron and machine shops are the most prominent. Including the railway shops, there employ 4,700 hands. There was last year fabricated in these shops 22,000 tons of structural steel, which was practically all used in construction work in western cities—an indication of what is being accomplished in this one industry.

Last year forty-one new factories were added, with 1,000 hands, and this year the number will be exceeded. A very vigorous campaign is being waged to attract manufacturers. On a lesser scale one might repeat this story in the case of Calgary, Edmonton, Regina, Saskatoon, Medicine Hat and Lethbridge, not to mention the coast cities. As population flows into these cities and the surrounding districts, thereby increasing consumption and affording larger opportunities for local industry, present factories are bound to expand and new ones to enter the field.

WHEN AMERICANS THRIVED

Made Great Strides During Period of Protection

If we examine the history of the United States which, as a new country somewhat resembles our own, we will find it divided into periods of free trade and protection. During a period of protection, the government said of the fact of the Revolutionary War, and built up considerable home manufactures. Then came a period of free trade, which drained the country of specie, ruined the manufacturers, and ended in a great commercial crisis. Such period of free trade and protection, since that time, has produced a similar result. What is protection doing for the States now? Last year American manufacturers were sending machinery to Ireland, and English manufacturers complained that Americans were underselling them two dollars per ton on iron. The time is coming when the British Government may have to throw around their manufacturers the shield of protection once more. The present contention between workmen and masters may bring about a crisis in the manufacturing interests of England which will put their free trade principles to the test. Men talk bravely when danger is far off. So it is with British free traders while they know their own manufacturers are an overmatch for foreigners. But let the British markets be flooded with foreign goods, let British manufacturers be ruined, let the country be drained of specie, and see how long they will hold their free trade principles. This state of things would bring about as vigorous protection as ever. Free trade is an advantage in England now, but it was not so, or considered so, till it was seen that British manufacturers were an overmatch for foreigners.

THE HOME MARKET

The home market in Canada, economically and nationally, is of paramount importance to the agricultural classes of Canada, and it is just because the protection of the past decade has guarded that home market so consistently, that the Canadian farmer is more prosperous today than ever before. The growth of Canada during the past ten years has been for the benefit of the man on the land, who has enjoyed the most urgent demand for everything he could grow in the form of food.

Railways and Industries

We add railways by bonuses in order to bring producers and consumers into closer relations with each other; and protection to home industry has precisely the same effect.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed tired at night. You must get into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become bold healthy and beautiful. For sale by all dealers.

"A Home For Everybody"

PRIZE WINNING B.C. FRUIT LANDS

OWN a live new fruit and poultry tract (or more) in British Columbia and be independent for life. \$20 down and \$10 a month pays for it. No interest and payments extended in case of sickness. From \$500 to \$1,500 per acre realized by ranchers in this famous prize-winning district, the Main Kootenay Lake. Ideal climatic conditions, no rainy seasons as on the coast, no dry seasons or irrigation needed as in the Okanagan and Okanogan districts. See Government reports of other districts. I spent years in finding this ideal spot. I live there myself. I call my own fruit ranch—89 acres—"The Honeyman Place." Send for my booklet entitled "Homesiteing." It tells you all you want to know about that great British Columbia country, and there are scores of questions answered.

The new booklet, "Harris' New Method of Apple Culture," tells you how apples can be made to come into commercial bearing the second year. The old way you had to wait five years. Where a farmer made \$1,500 he can now make \$1,000 per acre. It is true if you will send me the names of ten of your friends or relatives who may be interested in buying fruit lands. I have sold to over 100 people the last four months and would be pleased to send you copies of some of the nice letters that they have written to me, which I received from those who have visited their holdings. I picked out for them.

Transmit your money if after seeing the tract I select for you you are not satisfied with it or with the rest I have to offer. If you cannot go to your tract and wish to retain your present position for a few years, and spend your vacation out there, I will agree to plant it and take care of it for you for five years at a small additional cost, and give you a share of the profits from crops. I allow you a discount of ten per cent. for cash and give you a good commission in case you can secure buyers for me.

My monthly price list for wild and improved tracts will interest the most careful buyer. My next excursion will be leaving Winnipeg June 27, and I will be pleased here you join me. Send for my famous "Kootenay Magazine," issued monthly, illustrated and full of good things about that wonderful country. \$2.50 per year, or 25c for sample copy. A year's subscription for 20 names, and addresses, (written plainly) of people interested in B.C. fruit lands.

Write me at once, giving name of a reliable reference, your nationality, amount you wish to invest, and I will forward booklet, map, etc. Address me personally at head office:

FINE DISPLAY OF CANADIAN GOODS

The "Made-in-Canada" Train Which is Touring the Canadian West

The "Made-in-Canada" train which is exhibiting Canadian factory products at many points in the West is growing to be a popular feature in Canada that products made by Canadian artisans are equal in quality, variety and value, to the best that can be produced anywhere in the world. This train is a striking example of what Canadian workshops can produce. Everything from the engine to the dining car was made in the Angus Shops of the Canadian Pacific Railway. Even in such advanced lines of manufacture as locomotives and motor trucks, Canada is not only ready to go out of Canada to obtain the best. Every exhibit is Canadian made and benefits by comparison with similar products from any other country. The special might have been extended to include and yet contain nothing but "Made-in-Canada" goods. Thousands of American farmers.

In Manitoba, Saskatchewan and Alberta are many thousands of farmers who have come across the line. They are accustomed to American products and naturally continue their use in Canada. But are ready to see what Canada is producing. The exhibition train gives them this information. At first hand they are inspecting Canadian goods. They are ready to accept but seriously have had little or no information on the subject. In the case of the train, the "Made-in-Canada" train is their object lesson. They find a car fitted up as a modern house, consisting of parlor, living room, bedroom, dining room and kitchen. All the furnishings in this house have been made in Canada. This is an object lesson of the fact that a home can be furnished through out with Canadian-made goods.

One West of Great Lakes. The train also contains evidence of the fact that the West is already giving a creditable place in manufacturing. One car allotted to exhibits west of the lakes, contains goods from factories at Port Arthur, Fort William, Winnipeg, Indian Head and Moose Jaw, and west attached to the train at Port Arthur.

It is, however, being demonstrated that there are unlimited possibilities west of Winnipeg for factory development. This is accomplished largely by lectures illustrated with over two hundred twelve-point slides of typical industrial scenes. The people of the west are given first hand information as to what factories mean to a community, how they add to the population, benefit mercantile life, and increase employment—these are the facts. These lectures during the day are given in the dining car fitted up for demonstration purposes, but where there are night stops, some slide hall is used. This series of illuminating lectures is one of the most interesting and instructive features of the trip. The lecturer is Mr. T. H. Rice, of Mitchell, Ontario, who has represented all Canada at World's Fairs in New Zealand, Australia, Belgium and Scotland. He is a fluent speaker, and thoroughly conversant with the subject. This idea is promoted still further by about twenty manufacturers' representatives, who are on the train, and are glad to learn of the natural resources and other advantages of western districts. In fact, the manufacture of the train is depending on information gleaned on this trip, to show the idea of what can be done along industrial lines in the Prairie Provinces. The exhibition and the lectures features in connection with it is thoroughly in accord with the policy of encouraging industries to locate in the western districts.

FACTORIES IN THE WEST

A Surprising Degree of Progress is Making. Industrially it may be said that the west shows a surprising degree of progress. While there are no figures available to illustrate the extent of western manufacturing, either in the number of factories, the number of hands employed or the value of the output, still there have been marked developments in the principal cities to prove that manufacturing is gaining considerable foothold. The principal products made in the west are those connected with the building trades, which are necessarily very active in view of the tremendous growth of the cities. But the list also includes several other commodities, and with the increased population, small factories of today will undoubtedly grow into large factories to-morrow.

HOME TRADE OF \$22,000,000. Canada's home consumption of grain products is increasing, but few people seem to realize the extent of this increase. The increase cannot be less than \$2,000,000 every year. The value of our home market, however, is \$22,000,000 more of the day's production than it was ten years ago. The home trade cannot be far from \$20,000,000 a year, which means that the home market is by far the most important one for the dairy farmer.

CHAMBER BLOWN DOWN. Curing the hurricane which accompanied the storm of Wednesday evening last, the framework on the building being erected on Third Avenue by Mr. Robert Wright was blown down. The studs and second floor were in place.

Settlers Swarm Along Line of Grand Trunk

Settlers have been swarming in along the line of the Grand Trunk Pacific to such an extent in the past few years that the Western States are beginning to view with alarm. The Wisconsin State Fair will exclude this year Canadian exhibitors, not desiring to tempt their people to travel to the northland. A convention of governors of the Western States has recently been deliberating at Seattle for the purpose of devising some means for checking immigration to Canada. This move is a measure acknowledges the attractions and advantages of our prairie provinces, and at the same time publishes a splendid advertisement for the Dominion of Canada.

Soreheads over the weather of the annual sports day went around singing the song, "If the wind had only blown the other way." True, we might have had a finer day, but see what the country would have missed. The weather on Sunday night was at that point where a turn otherwise would have spelled disaster.

Certainly it was more or less of a shame, for during the thirty days previous to the beginning of the month, no shower of appreciable duration was experienced. Preparations were made for a day of big events, and the weather men intervened. Few lodged any complaints during the day.

The athletic association is out hundreds of dollars over the day and few as yet have expressed their extreme regrets. The members of the association view the situation in a different light, altogether, for each one had interests, which depended upon the turn of the weather.

Grain was beginning to fall, droop and turn yellow. Wasn't

TO THE PUBLIC

Please Bear in Mind that after May 1st, I will Absolutely Refuse to grant further credit to anyone.

YOU MAY BE GOOD AS GOLD BUT CASH IS ALWAYS BETTER

I am Compelled to Adopt Such a Course

Remember no Credit After MAY 1st, 1912

85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 10, 11, 12, 13, 14, 15,

the improper handling of this human mechanism. Mental depression, a confused head, backache, headache, or hot flashes and many other symptoms, a derangement of the woman's system can be avoided by a proper understanding of what to do, in those trying times that come to all women.

Miss G. W. WILLIAMS of Lynchburg, Va., writes: "It is six years since my health gave up. I had female trouble just all the doctors (I employed three) said I would die. I was not able to do my work. I used to cry myself to sleep. Finally, I got a friend of mine, Dr. Pierce's Favorite Prescription, and decided to try it. I had not taken but my health began to improve. Had done one box, I took in two more, and now I am able to do all my housework, and have gained fourteen pounds. I feel like a new woman."
